Dear McLeod Subdivision Resident

## **Re: Notice of Road Paving to McLeod Subdivision Residents**

Dear Residents,

The Township of Spallumcheen would like to inform residents of the McLeod subdivision that road paving work is scheduled to begin in your area later in May. Okanagan Aggregates has been selected as the contract who will be undertaking this work.

Once paving operations begin, residents can expect traffic disruptions and travel delays. We kindly ask for your patience and cooperation during this time, as crews work to complete the project safely and efficiently.

Paving will start at Highway 97A and proceed up McLeod Road. As part of this work, the **McLeod Road entrance to the subdivision will be closed for approximately one week.** While this temporary closure is in effect, access to the subdivision will be temporarily rerouted through Mountainview Road, with signage in place to help guide drivers. The map on the back shows you the basic paving areas that are part of the 2026 paving project.

This project is being completed as part of the Township's **5-Year Capital Road Plan**, which focuses on maintaining and improving local transportation infrastructure in a fiscally responsible manner.

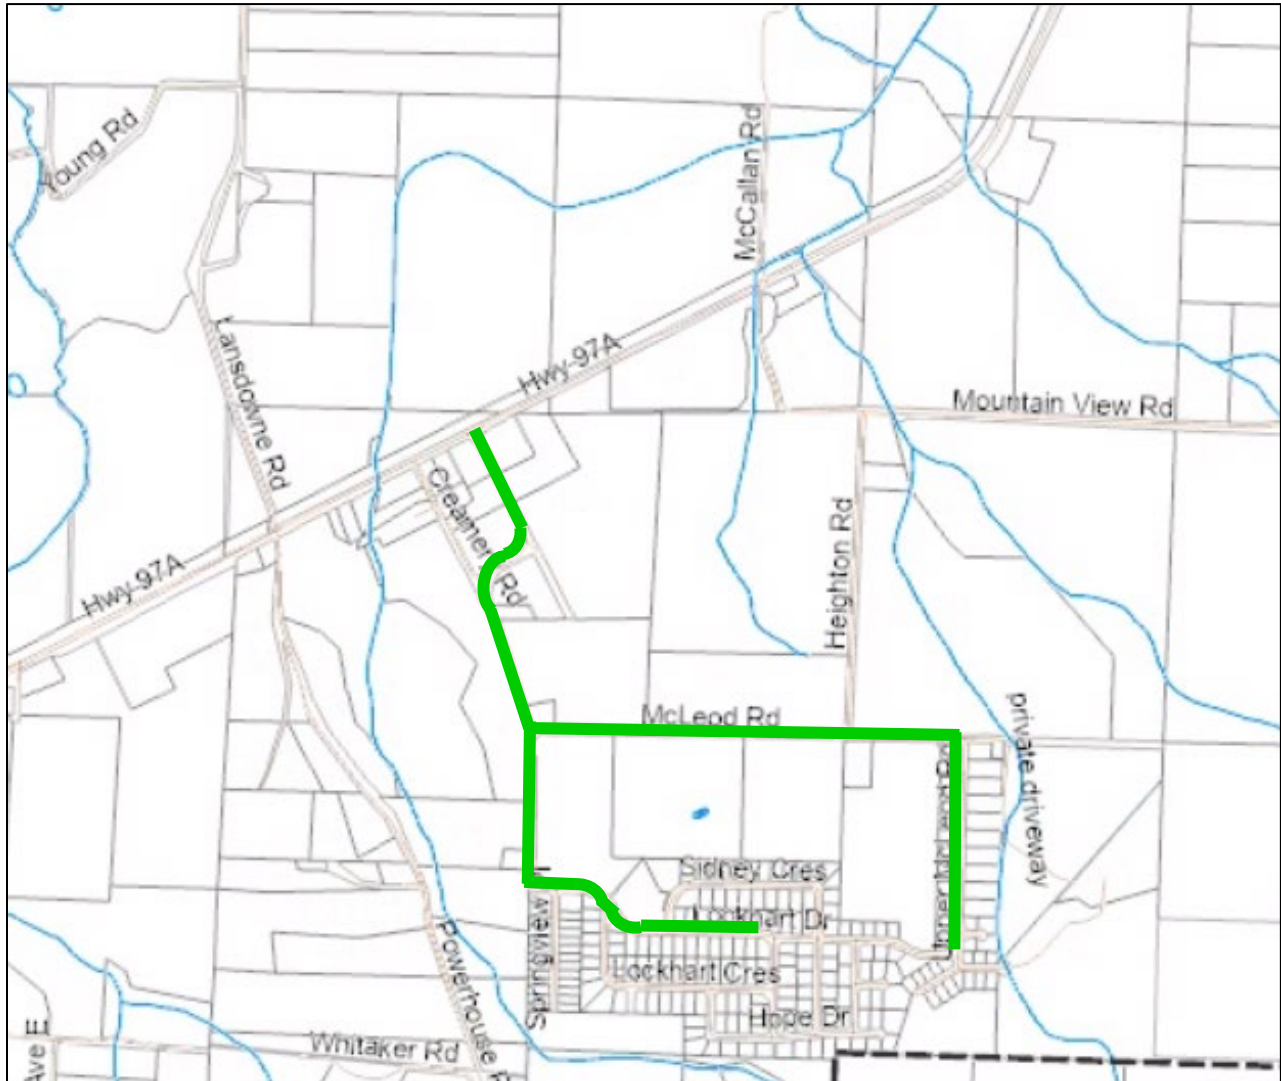

More detailed information, including confirmed dates and access updates, will be provided over the coming month as the project schedule is finalized.

Thank you for your understanding and cooperation as we work to improve road conditions in your neighbourhood.

Sincerely,

**Township of Spallumcheen**

## 2026 Capital Roads Paving Project Area

The green lines on the map above show the project area for the 2026 Capital Roads paving taking place within McLeod Subdivision.
